DETAILED ACTION

Claim Objections

Claims 1, 12-14, 19, and 21 are objected to because of the following informalities: multiple incidences of periods presented in the body of the claims. Additionally, claims 1, 12-14, 19, and 21 include undefined variables. Appropriate correction is required.

Specification

The abstract of the disclosure is objected to because it contains more than one paragraph and more than 150 words

Allowable Subject Matter

Claims 1 – 27 would be allowable if claims 1, 12-14, 19, and 21 were amended to overcome the objections, above.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for evaluating parameters describing Euler angles that includes providing a mathematical model of optically thick material, the mathematical model including Euler angles relating material system angles to a laboratory frame of reference and real and imaginary components of Kramers-Kronig tensor, in combination with the rest of the limitations of the claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Fujimara et al (5,595,916) and Forouhi et al. (4,905,170).

This application is in condition for allowance except for the following formal matters:

See above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte* Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
